About **Shanghai Jiajiajiao Tixtile Co.Ltd**

Since 1999, Jiajiao Textile is an established manufacturer and supplier of spill control products. We are committed to providing customers with high—performance polypropylene sorbents and innovative solutions for industrial maintenance and spill cleanup.

Over these years, Jiajiajiao has developed a substantial range of spill cleanup products to meet the specific needs of customers. Whether you need absorbents for oil, chemical or general purpose, we have them all! We carry a variety of pads and rolls in light, standard and heavy weight to clean up oil, fuel and chemical spills. We also have socks, booms, pillows and spill kits in different sizes for specific application.

Jiajiajiao is a customer oriented company. We focus on delivering our clients superior products and services. Our goal is to build long term cooperation relationships with customers.

With a wide range of products, high—tech integrated manufacturing process and our professional and knowledgeable sales team, we can design for you an efficient and tailor—made spill cleanup program exactly to your needs.

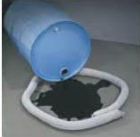

Overall Introduction

Pads and rolls have various uses. Pads are used to clean up and recover spilt liquids. They are used like wipe and very versatile for getting at hard to reach areas. When a spill occurs, socks or booms are used to contain the spill then pads are used to absorb the trapped liquid from the centre.

Rolls can be used as blanket put beneath the machine to absorb leaking and dropping oil. In addition, pads and rolls are useful for placing dirty / oily components and tools on.

Socks and booms are used to stop the spread of a spill and are the first line in spill containment. Once you have them in place you can then use pads, rolls or pillows to recover the spilt liquids.

Socks are ideal for coiling around machinery to contain and absorb any oil leaks and drips. They are also used to form a ring around larger spills to act as an absorbent barrier.

Booms are floating barriers used to contain and minimise the spread of oil on water. Enclosed in a strong outer netting for durability, hooks and rings are attached for linking together to form any required length. Hooks are placed 30cm in from each end of the boom to form an overlap which acts as an extra barrier against oil escaping.

Pillows are used to clean up and recover spilt liquids in tight areas such as bilge pumps, drains, sumps and holding tanks. Pillows are suitable for placing under machinery and drums leaking oils and fuels.

Spill Kits offers an effective and immediate response to a broad variety of spills, from common fluids and oil to chemicals even hazardous liquids that can be detrimentally damaging to the environment.

Having spill kit on site is highly beneficial in the event of a spill and they allow the user to efficiently and successfully clean up spills.

All absorbents are available in 3 different applications:

Oil-only absorbents---White

Hazchem absorbents---Yellow

Universal absorbents ---Grey

Polypropylene Fuel & oil Absorbents

吸油系列—漏油解决方案，该产品只吸油，不吸水，广泛用于油库，油井，机械车间，轮船以及海洋湖泊的污水处理。
Fuel & Oil absorbentes are made of melt-blown polypropylene. Being hydrophobic, they are also called Oil-only absorbents which repel water and float once they become fully saturated, making them most suitable for marine application.

Oil-only absorbent pad comes in flat and dimpled pattern.

Absorbent Granule & Particulate

Absorbent Granule

环保型散装吸油颗粒--质地轻，吸附量大，节约清理成本

ITEM CODE : NTAG10

1. Versatile and cost-effective
2. Absorbs spillages of oil and universal liquid
3. Absorbs up to 15 times of its own weight

PACKING

10KG/BAG

PP吸油颗粒
Oil Absorbent Particulate

ITEM CODE : NTOAP10

This loose particulate can be spread over the spillage for rapid absorption and then swept up. Small and large areas can be cleaned quickly, cost effectively and safely.

10KG/BAG

Solid Floatation PVC Boom

ITEM CODE: NTPVCB 防污围油栏

Solid PVC floatation boom is economize and general propose boom for encircling spill oil and other floaters on water. It is especially suitable for permanent deployment and widely used at pond, lake, river, harbor and offshore petroleum platform.

size: 300mm*400mm*20m

Oil-only Spill Kits

吸附套装—各类吸附材料组合配套，多用于应急防护。在溢漏发生后可提供高效快速的清理方案。套装有三种不同应用：吸油类，化学类和通用类，并有多种规格供选择。套装是加油站，车间，轮船，码头等工作环境的必备应急设备。Emergency spill kits are the best way to protect against unexpected spills that may happen anywhere at anytime. Spill kits give you the ability to have the response materials close to any potential hazard area. Be prepared for a spill emergency!

吸油套装 Oil-only spill kits

Oil-only spill kits are suitable for all fuel, oil, petroleum, cooking oil and other messy liquid spills.
